

TIMON ROSSOLIMOS, PROFESSIONAL TRADER, PRESENTS:

# THE FOUR LAWS OF TRADING SUCCESS

Since 2003 and after coaching + 257,000 people,  
here's how to level up your trading success...

Dear excited reader,

$E=mc^2$

Everything you know about the Universe can be condensed into this tiny equation.

What if there was a formula that unlocked the secrets of trading the local and international markets?

What if I told you quite confidently that... there is.

After two decades of being in the markets, I have concluded that to make a consistent income using just one trading strategy requires, what I call...

**The 4 Trading Pillars To Success...**

Before I tell you about it, I want to ask you something:

*"What if you had that one trading strategy where you can make a consistent income on any rising or falling market, at anytime and anywhere in the world?  
Would this be something of interest to you?"*

If you answered yes, then I'd like to make you a free proposition.

With this opportunity, you'll be able to travel anywhere in the world, be independent from your job and finally live life on your terms. This project will help lead you to a more financially-stable, enriched and better quality of life.

Whether you've never traded the markets, dabbled a bit or you're an experienced trader looking to start, improve or optimise your trading results, it's now time to skip the steep learning curve and level up your trading skills and success.

But first, who am I?

# Hi, I'm Timon Rossolimos

Thanks for stopping by to hear what I have to share.

When I first started trading in 2003, it was very difficult to find a reliable, easy and a proven trading strategy which required little time in front of a computer screen.

Either they were far too complicated with many convoluted indicators or there were false click-bait marketing scams.

I had a feeling the journey was going to be long, lonely and a challenging one to create, adapt and refine that one trading strategy to help bank a consistent income.

You see, from a young age I envisioned that TRADING one day would offer a career which would deliver the income and freedom, where I could live and work anywhere in the world.

And now after 17 years of being in the industry, it's time to GIVE BACK to society and the world. That's why this invitation and proposition is not only free but very important that could change everything for you.

But I need to warn you: If you feel that you have a big ego, want to dominate the market, get rich quickly and never lose a trade, then I'm sorry for wasting your time but this opportunity is NOT for you.

This is NOT a get-rich-quick scheme.

This is NOT a get rich slowly thing either.

This is a **GET WEALTHY SMART opportunity...**

Now you might be thinking,

**"WHY ON EARTH DOES TIMON WANT TO REVEAL  
HIS ENTIRE TRADING STRATEGY TO US?"**

One simple reason in 13 words –

**I would've wanted another trader to do the same thing for me.**

Nothing in the world beats having a shared system predicated on similar passionate traders who share the same dream of growing their portfolio and having fun at the same time week in and week out.

And because there are trillions of rands and dollars exposed and traded in the markets every day – there is enough to go around for all of us.

Once you have the strategy, rules and secrets, becoming a consistently profitable trader is – **100% POSSIBLE AND IS ALL UP TO YOU!**

If you level up your trading skills and success with this one strategy, then you will have accomplished the main goal of this new venture.

What you're about to discover is that you actually don't need an 80%, 60%, 50% or EVEN a 20% win rate to be consistently profitable.

Even Peter L. Brandt (world-renowned trader, author and owner), who I had the honour of interviewing in the programme, mentioned how he has been able to make millions of dollars over decades of trading with just a 38% win rate.

---

*"My win rate is historically around 38%.*

*Generally, 100% of my profits come from 10% of my trades. It is a matter of trying to keep the other 90% from being a net loss."*

***Peter L. Brandt***

---

# *The MATI Trader System* strategy has delivered triple digit gains to thousands of members...

Since 2013, when I was handed down a trader service, The *MATI Trader System* strategy has helped yield my members the following results including:

- ✓ **652% accumulated gains** with a
- ✓ **62.5% win rate** from only
- ✓ an average of **1 to 2 trades** which takes up just
- ✓ **10 minutes per week.**

If you took all the trades (both winners and losers), you would have managed to turn a R20,000 commitment into a decent R165,077 or where R100,000 could have turned into a R925,388.90 income.

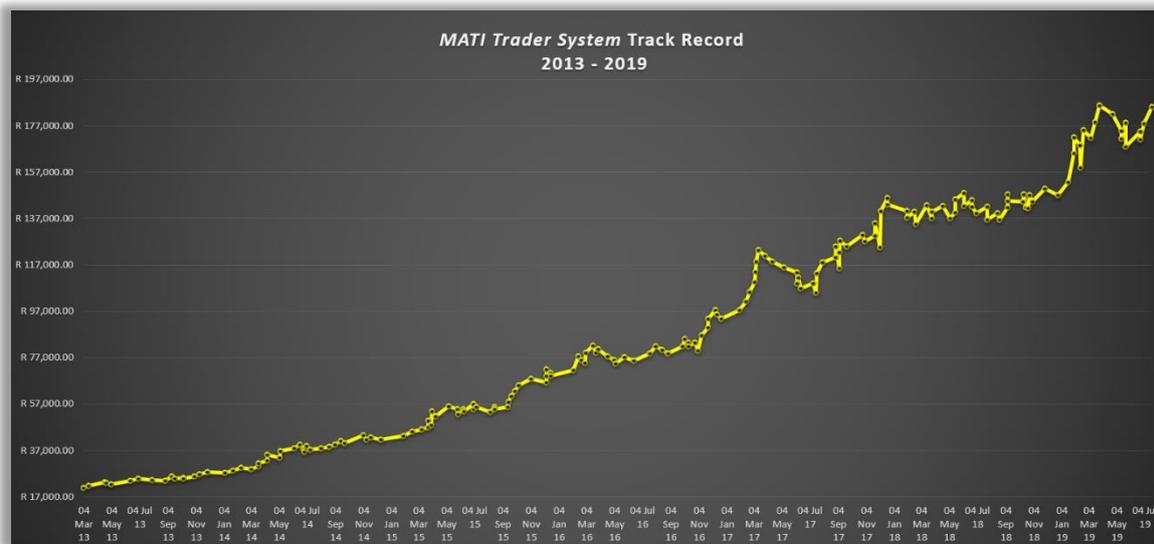

And that's being ultra conservative.

Frankly, if all goes well, there's no limit to your financial upside. Over the years, this one strategy has managed to bank members gains of...

- 107%** in 4 days on Mr Price
- 53.33%** in 3 days on The Foschini Group
- 59.94%** in 17 days on Remgro
- 74.51%** in 10 days on FirstRand Bank
- 60.40%** in 4 days on SAB Miller
- 89.78%** in 21 days on Barclays Africa Bank

**73.63%** in 19 days on Netcare  
**79.22%** in 21 days on African Rainbow Minerals  
**64.82%** in 21 days on Famous Brands  
**60.95%** in 12 days on Anglo American Platinum  
**62.34%** in 16 days on Anglo Gold  
**46.10%** in 5 days on Anglo American Platinum  
**43.80%** in 20 days on Kumba Iron Ore  
**34.97%** in 10 days on Anglo Gold  
And more...

And with complete transparency, here is the full track record for my trading service (with both winners and losers) using the same *MATI Trader System* strategy since 2013...

The only trick with this game, is to keep reinvesting your winnings into each new trade – and next thing you know you're well on your way to achieving your trading goals.

And best yet, there will be endless markets and opportunities to capitalize and profit from.

If we narrow down what some of the trades the *MATI Trader System* strategy has been able to deliver **from January 2019 up until August alone**, you'll have an idea of the kinds of losses and gains you can bank on.

Month	Company	Gain/Loss
Jan 19	Anglo American Platinum	51.95%
Jan 19	Nedbank	25.54%
Jan 19	Kumba Iron Ore	44.75%
Jan 19	Anglo Gold	47.77%
Feb 19	Exxaro	-29.93%
Feb 19	Anglo Gold	41.10%
Mar 19	Bidcorp	-27.74%
Mar 19	Anglo American Platinum	46.10%
Mar 19	Kumba Iron Ore	18.38%
Jun 19	JSE All Share Index	34.09%
Jun 19	Anglo American	-43.36%
Jul 19	Kumba Iron Ore	43.80%
Aug 19	JSE All Share Index	21.81%

## WHAT A FEW OF MY MEMBERS HAVE SHARED:

*"Hey Timon, just wanted to say "GREAT JOB" with the last 7 winning trades in a row. I have followed your tips to the letter and have made a nice little gain. Keep it up. Can't wait for the next tip to be released. Awesome Job!!!! "*

*~ V*

*"I've signed up to quite a number of trading programmes in the past, but not one of them have identified the true elements to actually make trading work. This is by far the most comprehensive trading programme I've ever come across."*

*~ Jeremy*

*"I made a 21% return and R3,000 in a few days. In my next trade I made a 28% return in 10 days. Thank you!"*

*~ Don W*

*"Timon you're a rock star. I just banked R8,000 profit"*

*~ F.H*

*"You have changed everything... Thanks for my comfortable life my friend."*

*~ Chris Weitsz*

*"Thanks Timon for the trading lessons. I have benefited a lot from your teachings and adopted the calm down character with money management strategies when it comes to executing trades. These two cost me negatively in the past with uncalled for losses but now am slowly trading wisely."*

*~ Petros*

Once you stop worrying about winning or losing trades on a daily basis, only then will you enter a new trading state where you'll:

- NEVER go back to square one.
- NEVER add another complicated indicator to your chart.
- NEVER ask for someone's opinion about a trade.
- NEVER second-guess your trading again.
- NEVER read through another trading manual.
- NEVER worry about losing big money on a trade.
- NEVER waste money on another trading book or programme.
- NEVER attend another high-price trading seminar.
- NEVER join another trader service.
- NEVER depend on a day-to-day job.

To achieve this you'll need to adapt, integrate and embed the most essential and universal principles to your trading.

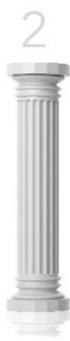

## 4 TRADING PILLARS TO SUCCESS

These principles include...

### MARKETS

Find and trade the best markets, at anytime and anywhere in the world.

### METHOD

Create and adopt proven, mechanical and consistently profitable trading strategies.

### MONEY

Use essential money management rules in order to increase your winners, cut your losses and preserve your portfolio.

### MIND

Improve your trading self-confidence and develop a successful trading mindset.

You'll need each and every one of these pillars to **find the best markets to trade, follow a proven trading strategy, know how to cut your number of losers and increase your number of winners and develop the mindset of a successful trader.**

This might sound like a "too good to be true" method and so, if you're feeling sceptical about this, then I don't blame you.

Scepticism is a perfectly normal and an excellent trait to have for any smart trader or any entrepreneur.

You need to research, test and investigate before you jump into anything in life.

My tenure in this industry has taught me not to publish something I do not believe in.

## You don't last 17 years in this game if you don't have something truly valuable to share with people

Unfortunately, with most people, they have this tiny voice inside their head – Inner Ninny – that tells them they can't trade or do anything of the sorts.

You hear people saying...

*"I don't know if I can trade as I'm not very good with charts, numbers or finance."*

Let me tell you this. Anyone can trade.

You just have to follow a few rules and principles.

I am proud and privileged that the *MATI Trader System* strategy has already managed to have such a positive impact on people's lives – here's what a few have shared:

Over the last two decades I've had the privilege of sharing different parts of these 4 Trading Pillars to over 257,000 aspiring traders through means of newsletters, radio, TV, books, seminars, boxsets, webinars and now through this new venture launch.

For the first time in my professional career I've finally consolidated the 4 Trading Pillars To Success into one concise, user-friendly, and easy-to-follow programme.

A warm welcome to my life's work called:

Here's what it is in a nutshell.

The *MATI Trader System Programme* is a carefully designed, high-definition visual and audio online programme that consists of 5 video lessons, 1 handbook, 1 cheat sheet, 50% discount voucher to the next trading event, 1 VIP membership Card for unlimited access and upgrades, and 3 downloadable tools for anyone looking to level up their trading skills and success using the complete *MATI Trader System* strategy.

Just to give you a sneak-preview, here's how one part of the *MATI Trader System* strategy works, which will be explained throughout the programme.

# HOW THE TRADING SYSTEM WORKS

Could you keep up?

If yes, then I know for a fact that you will indeed benefit from what I'm about to share with you today.

If yes, then I know for a fact that:

## WITH THE *MATI TRADER SYSTEM* STRATEGY YOU'LL DISCOVER HOW TO:

- ✓ Use a proven strategy to turn R20,000 into R165,077 and R100,000 into R925,388.
- ✓ Carry out trades easier, pay less and bank 10 times more profits.
- ✓ Know the best markets to trade, when to trade them, with less effort and with less risk.
- ✓ Fast-track your trading success in only 10 minutes per week.
- ✓ Apply three vital trading tools to set up a lifetime of income.
- ✓ Preserve and prosper your portfolio with three bullet-proof rules.
- ✓ Follow a strategy that works on any market, anywhere and anytime.
- ✓ Choose how much you'd like to bank a month with this one tool.
- ✓ Develop the millionaire-trading-mindset and boost your self-confidence.
- ✓ Never depend on anyone or second guess your trading ever again.
- ✓ Build your million-rand portfolio with the snow ball effect.
- ✓ Accelerate your portfolio results with the 8th wonder of the world.
- ✓ Boost your win-rate by 50% using my Ghost Rule.
- ✓ Never hold a boring trade with this powerful trading 'loophole'.
- ✓ Learn time less lessons from my interview with multi-millionaire trader Peter L. Brandt.
- ✓ And much more...

These lessons throughout the programme will help you take your trading to a whole new level.

The entire programme is explained and taught in a user-friendly, interactive and easily understood language. You'll be guided to your guaranteed trading success, not only during the programme but afterwards as well.

HERE'S WHAT YOU'LL RECEIVE WITH THE *MATI TRADER SYSTEM PROGRAMME*

## EARN A CERTIFICATE

Once you have completed the *MATI Trader System Programme* you will also receive a **Certificate of Completion**. Having this certificate will remind you that you have the competitive edge and everything you need to bank a consistent income for your financial career.

With your certificate, you'll be able to frame it and place it on your wall, as it will be a reminder on when your successful trading career began or improved.

I will also certify you with your very own

# VIP MATI Trader Membership Card

with your unique Identity Number.

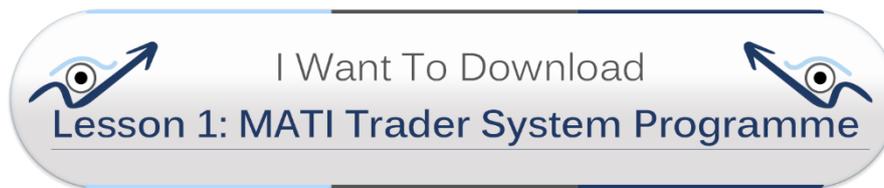

WITH YOUR VIP MEMBERSHIP CARD, YOU'LL GAIN ACCESS TO:

- ✓ A 50% Discount to the next *MATI Trader Live Seminar*.
- ✓ Discount to future *MATI Trader* products and services.
- ✓ Downloadable trading calculators and interviews.
- ✓ A lifetime of upgrades with *MATI Trader*.
- ✓ Invitation to *MATI Trader* Investment Lunch.

If you respond today, you'll receive a link to access the ***MATI Trader System Programme*** where you can download everything on your computer, phone or tablet.

Click the button below to [DOWNLOAD LESSON 1: MARKETS - FREE](#)

Today you have a choice and these windows of opportunities don't just rock up every day.

According to science, you only have **five seconds to physically act** on an idea or a thought, before you start with the cycle of procrastination.

And every minute spent waiting is a wasted opportunity you could use to grow your portfolio.

So let's speed this up now, because there is only one final thing you need to know.

If you consider all of the trading programmes out there, you'll know that most decent ones are sold at around R10,000 to R30,000 each.

However ethically, I can't allow myself to put such a high price on your faith, and so...

**I have deliberately chosen and pitched the first lesson for FREE AT ZERO CHARGE AND ZERO FINANCIAL COMMITMENT** for the *MATI Trader System Programme*, in order to make it accessible to all of the most dedicated traders who wish to ACTUALLY grow their wealth on a weekly and monthly basis.

## *"Why is this lesson free"*

A deeper motive is to eventually grow a community of *MATI Traders* where we will all be able to follow the same system, share different profitable trades that line up on any market, anytime and anywhere in the world.

So make sure you take advantage and 'Join the first FREE lesson of the *MATI Trader System Programme* today.

Thank you for taking the time to read this invitation, and I trust this programme will help create the life you deserve.

When you click on the below button, you won't be obligated to pay anything.

You'll just be taken to another page where you'll be able to pop in a few details and then all of the material for the **FREE LESSON 1: MARKETS MATI Trader System Programme** Video and book will be sent directly to your email address immediately to enjoy and watch at no charge.

If you have any questions at anytime about the programme or any other trading related question, you can ask at [info@timonandmati.com](mailto:info@timonandmati.com).

Trade well and enjoy,

*Timon R*

Timon Rossolimos

**Founder, MATI Trader System Programme**

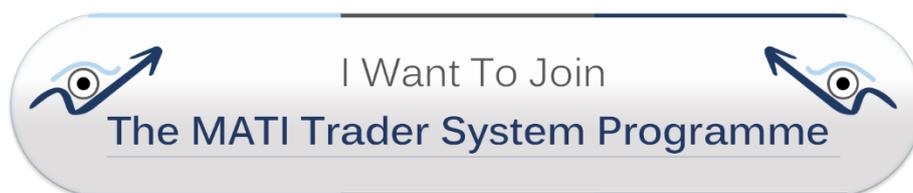

PS: YOUR QUESTIONS HAVE BEEN ANSWERED BELOW

***Q. "I have seen the first lesson and now I can't wait to download the complete MATI Trader System Programme. Where can I SIGN UP?"***

I'm glad you feel ready to start your full trading career.

You can either [click here to read more about my full MATI Trader System Programme](#) or click the button below.

***Q. "Is the ordering process secure and safe?"***

Yes it is fast, safe and 100% secure as we are using the latest complex encryption technology which will protect your data throughout the entire ordering process.

Also, if you're not 100% sure with Internet ordering yet, you can simply pay through an EFT and once you send the Proof Of Payment, I will send you the product/s as soon as I've received the e-mail.

***Q. "What DO I need to trade with MATI Trader?"***

- ✓ A computer to enjoy the lessons and download the trading calculators.
- ✓ An e-mail address to ask any trading question or query.

***Q. "What DON'T I need to start with MATI Trader?"***

- ✗ YOU DON'T NEED prior trading experience.
- ✗ YOU DON'T NEED to buy anything else.
- ✗ YOU DON'T NEED to prepare for tests and homework.
- ✗ YOU DON'T NEED a high education.
- ✗ YOU DON'T NEED a lot of money.

***Q. "How long until I start making money from the MATI Trader System?"***

It could be any day really – I can't answer this with certainty.

It could be your first trade which ends up as a winner or after your third trade when you finally hit a winning streak.

This all depends on how favourable the market environment is for the ***MATI Trader System***.

When the market is trending and showing strong volume, you're guaranteed to make money during this time.

***Q. "Do I need any qualifications or previous experience to trade with MATI Trader?"***

No not at all. In fact, I think the less you know the better you'll be to trade the ***MATI Trader System***.

All you need to know is some basic 6th grade maths, as well as how to identify simple shapes.

***Q. "Timon, do you believe the MATI Trader System is the perfect trading system?"***

If you mean by a 'perfect system' being able to predict the markets with accuracy and certainty every time, unfortunately not.

There is no such thing as a 'perfect system'. Any industry that trades billions of dollars at a time, comes with market uncertainties. Each trading system you trade with will eventually endure a consecutive period of losses and drawdowns during unfavourable trading market environments.

However, it's our job to make sure our winners outweigh our losses which will help grow our portfolio on a consistent basis. This is what I believe the ***MATI Trader System*** strategy has been able to achieve since inception.

***Q. "Will trading the MATI Trader System take up a lot of my time?"***

This depends on your trading personality and how many trades you're looking to take per day, week or month. If you're looking to use the ***MATI Trader System Programme*** to take five trades a day, then yes you'll have to be at your screen for a number of hours a day waiting for your trading setups.

However, if you're looking to take one or two trades per week – then 10 minutes per week is all you need.

### ***Q. "How much money do I need to start trading?"***

Anything really.

If you're looking to work up your skills, build your confidence and test out the *MATI Trader System* first, you can start with a demo account and not risk any money at all.

If you'd like to test the waters with a live account to practise trading with real money, a mere R5,000 is a good amount.

### ***Q. "How long will it take me to go through the MATI Trader System Programme?"***

We all learn and absorb information at our own pace. It can take you a few hours to complete the programme or it could take you five weeks.

The best approach is to allocate a manageable amount of time daily, until you complete the course, before you start trading.

### ***Q. "If this is such a great system then why doesn't everyone trade it?"***

This programme has been two decades in the making and only now I am I happy to share it with the trading community. Hopefully, as more people are exposed to *MATI Trader*, the more traders will be able to profit and trade from this proven and trusted system.

### ***Q. "Does the MATI Trader System only work with shares?"***

The *MATI Trader System* works with all high-liquid (high volume traded) markets and on any time frame. Over the past two decades, we've traded and tested the system on shares, indices, currencies, commodities and even crypto-currencies.

### ***Q. "Is this form of trading all legal?"***

Absolutely. All of the information you need to trade is with the use of charts provided by any market maker or broker.

There is no inside information but past data depicted into the charts.

The only information that is not known to the public is the *MATI Trader System* specifics with the ins, outs, and rules used to trade using historical data – but still 100% legal.

### ***Q. "Does this MATI Trader System strategy only work on buy signals?"***

No.

The system works on both buy and sell signals. In the second lesson of the *MATI Trader System Programme*, we will give you a downloadable cheat sheet so you can perfect your market entries and exits with both rising and falling markets.
